Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

With regards to independent claims 1, 11, 17, and 27, claims 1, 11, 17, and 27 contain limitations that overcome the best possible prior art. The best prior art in this case is Rogers (US 2004/0181471), henceforth referred to as "Rogers".

Rogers fails to disclose/teach the limitations of:

- sending the test document to each adapter within a plurality of adapters, wherein each adapter within the plurality of adapters includes a transformation engine and mappings, and wherein the plurality of adapters provide connections to the applications;
- comparing the set of returned documents to determine how each field within the plurality of fields is mapped among the plurality of adapters.

Claims 2-10, 12-16, and 18-26 depend from claim 1, 11, and 17 respectively and are allowable for at least the same reasons as set forth above.
